DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1: Claims 2-7, 16, 21-22, 24-25, 30, 33-38, 49, and 50.

Species 2: Claims 8-15, 27-29, 31-32, 51-52 and 55-57 directed to including a reference linked to the selected part in the CAD display and this is not required for Species 1.

Species 3: Claims 17-19, 26, 41-43 directed to hierarchical part catalog and this is not required for species 1 and 2.

Species 4: Claims 20 and 44 directed to automobile parts only, a limitation not required for other species.

Species 5: Claim 23 directed to highlighting and this is not required for other species.

Species 6: Claims 39-40 directed to copying and this is not required for other species.

Species 7: Claim 45 directed to truck part only, which is not required for other species.

Species 8: Claim 46 directed to aircraft part only, which is not required for other species.

Species 9: Claim 47 directed to boat part only, which is not required for other species.

Art Unit: 3625

Species 10: Claim 48 directed to machine part only, which is not required for other species.

Applicant is required under **35 U.S.C. 121** to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently claims 1, 53 and 54 are generic.

A telephone call was made to attorney Mr. John Harris on September 10, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by **37 CFR 1.141**. If claims are added after the election, applicant must indicate which are readable upon the elected species. **MPEP § 809.02(a)**.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under **35 U.S.C. 103(a)** of the other invention.
